ESCIENT®

FireBall DVDM-100 DVD and Music Manager

the ONE with movies, music, & iRadio

The Escient FireBall DVDM-100 DVD video and CD music Manager automatically stores, secures, and catalogs your entire DVD and CD collection. Escient's patented automatic disc recognition technology and Escient's best in class user interface make the DVDM-100 the cornerstone of every home theater. Simply load your discs into external disc changers, close the door and the FireBall DVDM-100 does the rest. After each disc is scanned and queried against the worlds largest DVD and CD databases, you have access to all of your DVD and CD discs through your TV screen. Browse, search, select, and play any disc in your collection without ever having to find that missing DVD or CD case.

DVD AND MUSIC MANAGEMENT FEATURES

- **Instant Movie and Music Access** – instantly access any DVD or CD in your collection using the intuitive on-screen guide
- **Multiple Movie and Music Views** – view your movies and music by genre, title or cover art
- **Detailed Movie Descriptions** – get on-screen information including cast, rating, genre, year, run time, and detailed descriptions for every movie in your collection
- **Store and Protect** – safely store your entire DVD and CD collection in up to three 400 disc DVD changers
- **Value Minded** – it costs less to store 1200 DVDs in external changers compared to hard drive storage or expensive entertainment center furniture
- **Automatic Disc Identification** – uses Escient's MovieDB™ and Gracenote CDDDB for the best possible disc matching in the world
- **Automatic Cover Art** – full color cover art for every disc is automatically located and displayed for you
- **Network Music Player** – play digital music from FireBall Music servers located on the same network
- **Parental Controls** – limit which DVDs can be browsed and played by your kids
- **Fully Customizable** – create and edit your own movie and music genres and create custom playlists and Internet radio stations
- **Free WMA and Shoutcast Internet Radio** – high quality Internet Radio stations updated automatically using the Escient RadioDB Tuning Service
- **Built-in Video Switcher** – automatic changer selection and A/V routing to your receiver or TV using only one input

INTERFACE AND CONTROL FEATURES

- **On-screen Graphical User Interface** – often imitated, but never duplicated, simply the best interface around can now be customized with personalized backgrounds to match any décor
- **Web Server and PDA Interface** – remote control and music streaming from any standard web browser or PDA
- **FireBall-PC** – support for browsing and playing music stored on the home PC or Mac
- **Sophisticated Control Interface** – extensive two way control enables endless integration possibilities with Crestron, AMX and other home automation and third party remote control systems
